

Experiment: _____

To: Subjects in Attention/Perception Lab

The US Department of Health and Human Services requires that all investigators receiving research funding from the National Institute of Mental Health request the following demographic information from each subject. Although we regard this information as none of their business, we have no choice but to ask each subject to place a small slash mark in one of the boxes below. Note that you can check “Decline To State”, if you wish, and that you have no legal obligation to provide accurate information.

	Male	Female	Decline to State
Native American			
Asian or Pacific Island			
African-American			
Hispanic/Latino			
Caucasian			
Other			
Decline to State
